

core/include/rapidjson  
/msinttypes/stdint.h

```
graph TD; A["core/include/rapidjson<br/>/msinttypes/stdint.h"] --> B["limits.h"]; A --> C["wchar.h"]
```

The diagram illustrates a dependency structure. At the top, a gray box contains the path 'core/include/rapidjson /msinttypes/stdint.h'. Two blue arrows originate from the bottom of this box, pointing downwards to two separate white boxes. The left box contains 'limits.h' and the right box contains 'wchar.h'. This indicates that the top-level header file includes both 'limits.h' and 'wchar.h'.

limits.h

wchar.h
